Norwegian Forum
for Global Health Research

TO MAKE A
DIFFERENCE
IN THE WORLD

- BECOME A MEMBER OF FORUM

Norwegian Forum
for Global Health Research

FORUM IS A SOCIETY OF INDIVIDUALS

Our main aim is to promote high quality research, education and training to improve health and health care for marginalized populations. Forum aims to create an arena for exchange of ideas and views in global health – you can be a part of this work!

As a member, you may influence the way forward in Forum.

THE FORUM WORKS ON A NUMBER OF ISSUES OF RELEVANCE TO GLOBAL HEALTH

- Support global health research, education and capacity building
- Influencing policy makers
- Organizes conferences in global health

FORUM WANTS TO IMPROVE GLOBAL HEALTH AND HEALTH CARE

Much knowledge is available on what is necessary to improve health and health care in low-income countries, but much of this knowledge is not applied. Research is needed on why effective interventions are not properly implemented. Further, there is a great need for research on specific poverty related diseases, including diagnostics, treatment and prevention.

The Norwegian Forum for Global Health Research was established in 2005 to address these concerns. Forum supports initiatives to meet the Sustainable Development Goals (SDGs), initiated by the United Nation. In particular, Forum works to meet the SDG 3 – Ensure healthy lives and promote well-being for all at all ages. Forum co-operates with the network Global Health Norway and The Norwegian Research School of Global Health.
